

A photograph of a living room interior. On the left, a fireplace with a wooden mantel has a fire burning. Above the mantel are two framed pieces of art. To the right of the fireplace is a small wooden side table with a lamp and some decorative objects. A young girl is lying on the light-colored wooden floor, drawing with markers. In the background, a doorway leads to another room where a person's legs are visible. The overall atmosphere is warm and lived-in.

REAL LOOK & FEEL

DIGITOUCH is a **complete digital solution for printing life-like 3D textures directly onto boards.** Recent industrial inkjet printing can produce very convincing reproductions of natural materials like wood and stone but people quickly spot the difference when the authentic 3D texture is missing. **DIGITOUCH adds that real look and feel.**
