

The future of flooring, today.

IOBAC is a magnetic flooring system that enables a more flexible, cost-beneficial installation over the life of a floor than traditional methods.

Here's why it is the future of flooring, today:

1. SIMPLE

- › Choose from a magnetically receptive fast-cure resin or roll-down layer, add a surface finish and go!
- › NEW IOBAC Magnetic Tabs enable the use of non-magnetic surface tiles
- › Change to a new floor with ease simply by switching the top surface finish

2. FLEXIBLE

- › Design freedom - change the look and feel of a space effortlessly
- › Easily swap out damaged top surface tiles in seconds
- › Simple maintenance with reduced ongoing costs

3. FAST

- › Minimal down-time and disruption to your operations
- › Install a new floor in a matter of hours, rather than days

4. CLEAN

- › No adhesives involved
- › Minimal VOCs
- › No need to send used tiles to landfill

How it works:

Step 1: Choose magnetically receptive sub layer

Choice of 2 approved resin systems

OR

Magnatak Metallic Roll-Down Layer

PLUS COMING SOON!
Magnetically Receptive Concrete

Step 2: Add Surface Finish

Magnetically backed Tiles

OR

NEW IOBAC Magnetic Tabs

Enable non-magnetic floor finishes to easily be fixed in place
