

ACTIVE GUARD

BUILT-IN ANTIMICROBIAL FLOORING PROTECTION

For people who find comfort in a clean home, Activeguard antimicrobial flooring protection makes cleaning the surface effortless.

ActiveGuard delivers **antimicrobial flooring protection in three ways.**

DISRUPTS

DISABLES

DESTROYS

TRIPLE PURPOSE

HOW DOES IT WORK?

DISRUPTS

Attaches to the bacteria's cellular wall, preventing growth

DISABLES

Prevents the bacteria's ability to produce enzymes necessary for energy production

DESTROYS

Destroys bacteria DNA's ability to replicate

WHAT DOES IT DO?

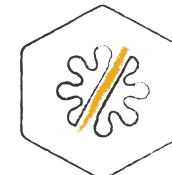

FRESH

Actively prohibits the growth of microorganisms to keep the floor's surface clean, prevents messes before they even begin.

CLEAR

Actively attacks microbes to conveniently clear out invisible microorganisms, bacteria, mold and mildew.

CLEAN

Actively neutralizes odors caused by mold, mildew and microorganisms – for a home with fresh air and peace of mind.
