

UNIFIT

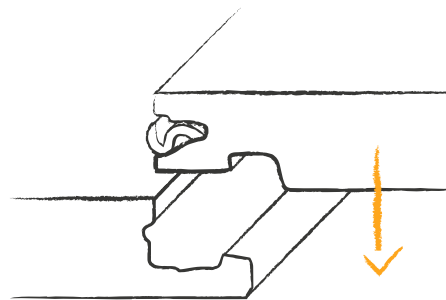

two-piece fold down
locking technology

FLEXIBILITY IN INSTALLATION METHOD

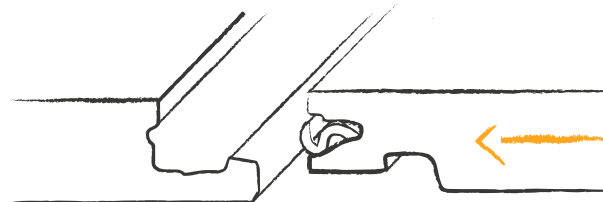

UNIFIT is a state-of-the-art **fold-down technology with plastic insert locking on the short sides of the panels**. This system ensures stability in the toughest conditions.

UNIFIT not only offers flexibility in installation with three different methods, but also in production: the length of the plastic inserts is customized in line during production to match the desired width.

3 installation methods

FOLD-DOWN

SNAP (HORIZONTAL)

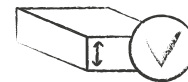

ANGLE (20-30°)

Why choose UNIFIT locking?

QUICK AND EASY INSTALLATION IN 3 WAYS

IDEAL FOR THICK PANELS

SIMPLE INTEGRATION IN EXISTING
PRODUCTION LINES
